Grade Band	Templating	Dev Experience	Submission and Deployment	Release	Release Features
<b>Starter</b>	Eleventy	Clear project Structure—HTML, CSS (minimal, mostly Bulma), Flexbox	.zip File upload to Moodle	POC – 1 - City Focus 1 1 City with today's weather	<ul style="list-style-type: none"> <li>- Display City Name</li> <li>- Made clear that it is Today's Weather</li> <li>- Max Temp and Wind</li> </ul>
<b>Baseline</b>	<ul style="list-style-type: none"> <li>- Layout and template usage</li> </ul>	<ul style="list-style-type: none"> <li>- DRY Principle</li> </ul>	<ul style="list-style-type: none"> <li>- GitHub repo link</li> <li>- GitHub commit history</li> <li>- Bulma breadcrumb component</li> </ul>	POC – 2 – City Focus 2 + current hour's weather	<ul style="list-style-type: none"> <li>- Added “Right Now” current forecast</li> </ul>
<b>Good</b>	<ul style="list-style-type: none"> <li>- Reusable components</li> </ul>	<ul style="list-style-type: none"> <li>- Pretty Good README (I'm not going to judge my own work too intensively, I think it's good, but that's subjective)</li> </ul>	<ul style="list-style-type: none"> <li>- Bulma dropdown component for a language modifier feature (not fully implemented with JS)</li> </ul>	POC – 3 – City Focus 3 + 7 days summary	<ul style="list-style-type: none"> <li>- 8 cities</li> <li>- Clear/concise 7-day summary</li> </ul>
<b>excellent</b>			<ul style="list-style-type: none"> <li>- Netlify Deploy</li> </ul>	Release -1 + Dashboard	<ul style="list-style-type: none"> <li>- User experience focused</li> <li>- Ability to navigate to city view from dashboard</li> <li>- Ability to navigate back to dashboard or other nav pages from city view</li> </ul>
<b>Outstanding</b>			<ul style="list-style-type: none"> <li>- GitHub push deploys to Netlify</li> </ul>	Release – 2 + Configure User Preferences	<ul style="list-style-type: none"> <li>- User preferences on Settings page</li> <li>- Clear navigation</li> </ul>
<b>Amazing</b>	<ul style="list-style-type: none"> <li>- Nunjucks conditionals</li> </ul>		-	Release – 3 + Build out your own features	<ul style="list-style-type: none"> <li>- Comment/feedback form submission template on home page</li> <li>- -login/register pages</li> </ul>

## Reflection Section

- Please highlight anything of mention that you think should get marks that is difficult to convey in the rubric above
  - For Nunjucks Conditionals, I used if statements, for loops, and array lists to create a more DRY template on my dashboard and city focus pages to make it easier to format all the sections without running into too many issues regarding formatting because of nested containers and how they interact with one another.
